

Adirondack Odyssey Summer 2026

A Canoe Expedition in the Central Adirondacks

Adirondack Odyssey is an immersive 8-day backcountry canoeing expedition **designed for locally involved 8th grade students to develop leadership skills** that positively impact their communities. Facilitated in the Central Region of the Adirondack Park, this trip offers students the chance to grow as leaders while navigating the challenges of the wilderness. Throughout the expedition, participants will engage in the Action Learning Cycle, allowing them to learn, practice, and apply essential leadership skills in real-time. Guided by experienced CSC staff, students will explore key frameworks, including Clifton Strengths, Stephen Covey's Emotional Bank Account, and Experiential Education models. These tools will help lay a foundation for effective teamwork, leadership, and community engagement.

Scholarship applications available from your District Coordinator or go to the Clark Sports Center Website for more information.
